

CRYPTO FINANCIAL SERVICES FOR EVERYONE

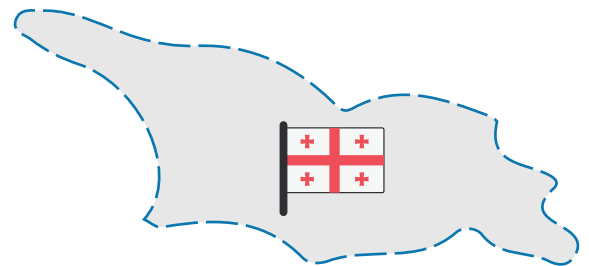

ADVANCED MULTI FUNCTIONAL CRYPTO-EXCHANGE PLATFORM

WHY BIXTRIM?

Bixtrim's multifunctional platform and its various features/services can fill the gaps of the existing alternative models for payments, savings, trading, exchange and lending.

Bixtrim is an innovative crypto-exchange platform with simplified access for everyone. Here at Bixtrim, we believe everyone should have easy and fast access to crypto-financial services, that is why our team created a platform solving today's most burning issues in the crypto world.

The Bixtrim team has an innovative vision of a future with simplified usage of crypto in every day life and we want our customers to be a part of it. The popularity and quick success of cryptocurrencies has made it crucial for infrastructure and functionality to keep up. That is exactly why we found so many obstacles and issues that needed to be solved. Our team of like-minded people rallied in order to make these revolutionary ideas a reality.

WHY GEORGIA?

- Blockchain is already a part of everyday life - from land deeds to property registration.
- Over 15% of bitcoin mining takes place in Georgia.
- Ranked 9th by the World Bank for "Ease of Doing Business in 2018".
- Ranked 4th by the World Bank for "Starting a Business in 2018".
- There is a high adoption rate of blockchain-based technologies by the Georgian government.

TOKENS

The Crypto economy has given us a whole new way to build new infrastructure through the use of Crypto Tokens. People are coming together to fund something they truly want, something they truly believe in. And as token holders, they are benefiting from the growth in its value.

The platform will cover:
Existing, but upgraded functions such as saving, trading, exchange of cryptocurrencies, etc.

Brand new innovative opportunities such as:

Pawnshop – function allowing pawning cryptocurrencies

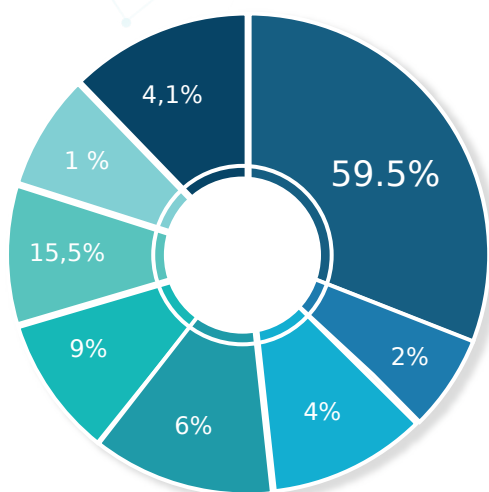

Futures – supporting transactions planned on a pre-determined date

Escrow – supporting deals with pre-defined independent principal

Multifactorial authentication - verification using several steps

Plastic Cards – exclusive product, attached directly to cryptocurrency

TOKEN DISTRIBUTION

- Private Sale
- Regular sales
- Phase 1
- Phase 2
- Phase 3
- Referral
- Team
- Bounty

Legal/Regulatory Partnerships

Bixtrim works with regional governments to shape future regulations

Offer the Counter Clearing House

Bixtrim utilizes seamless strategies to penetrate a \$1 billion per day market that is fragmented and lacks maturity

Mining

Bixtrim utilizes 1.1mW of low-cost electricity in Georgia's physical infrastructure, scalable to 10mW for optimal performance
